

OCCUPATIONAL HEALTH AND SAFETY MAGAZINE FEATURES DEFOG IT ANTIFOG

December 24, 2010 – Valley View, Ohio – Occupational Health and Safety Magazine recently highlighted [Defog It antifog towelettes](#) in its Product Spotlight feature. A leading publication for workplace safety, the magazine write-up said, “Nanofilm’s Clarity Defog It antifog towelettes are designed to eliminate fog from protective eyewear in heat, humidity, cold and other harsh environments. The towelettes can be used for a variety of applications, including mining, steel, manufacturing, law enforcement, and food and chemical processing.”

The Product Spotlight on Defog It was a follow-up to a news story the publication did on [Defog It antifog searching for product field test sites](#). The magazine’s website also includes a white paper from Defog It antifog in their resource library, [Reducing Eye Injuries in the Workplace: A Study of Personal Protective Eyewear and Antifog](#).

“We’re pleased that the 80,000-plus readers of Occupational Health and Safety Magazine are getting to know more about how Defog It antifog can keep safety eyewear fog-free and workers safer,” says John Swett, Vice President of Sales and Marketing for Nanofilm, maker of Defog It.

First used by the military worldwide, Defog It is the proven safety choice in the toughest workplace environments where heat, cold, humidity and exertion cause fogged safety eyewear. It’s used in utilities, pulp and paper, mining, chemical processing, forestry, law enforcement and other industries. The product is safe and effective on safety glasses, goggles and faceshields.

Lab tests also confirm the antifog’s high performance. In one test, a lens treated with Defog It was held over constant hot steam for 60 minutes without fog forming. Similar products failed in as little as 5 minutes. In another test, lenses coated with Clarity Defog It were moved between cold and hot environments 100 times without fog forming.

Defog It is available as a liquid or reusable cloths. More information, pricing and performance videos are available at www.defogitworks.com or by calling 1-888-ENDS-FOG.

[Nanofilm](#), founded in 1985, is the maker of Clarity Defog It and a global optical leader in lens care and coatings. Millions of people around the world use Nanofilm products, including Clarity Clean It™, Clarity Defog It™ and other lens care products, as well as nanotechnology-enabled coatings.
