

LAWOFFICER.COM “CAN’T SAY ENOUGH GOOD THINGS” ABOUT DEFOG IT ANTIFOG

December 28, 2010 – Valley View, Ohio – Lawofficer.com, which features the best in tactics, technology and training for the law enforcement professional, recently gave rave reviews to [Defog It antifog](#) for use on shooting glasses and protective eyewear. Said Dave Spaulding, reviewer, “The fact is, when your safety depends on fog-free vision, you can’t settle for second best, and I’ve found Defog It’s the best product of its type.”

Spaulding, the 2010 Law Officer Trainer of the Year and Law Officer's Firearms columnist, went on, “All you have to do is wipe it on, and you’ve got anti-fog safety or eye glasses, anti-fog goggles, anti-fog face shields. You’ll be ready for heat, cold and high humidity, even when your job means working up a sweat...I can’t say enough good things about this product.”

“Defog It antifog is formulated to stop fog under the harshest heat, cold, humidity and exertion,” says John Swett, Vice President of Sales and Marketing for Nanofilm, maker of Defog It. “We’re proud to be protecting law officers.”

First used by the military worldwide, Defog It is the proven safety choice in the toughest workplace environments where heat, cold, humidity and exertion cause fogged safety eyewear. It’s used in utilities, pulp and paper, mining, chemical processing, forestry, law enforcement and other industries. The product is safe and effective on safety glasses, goggles and faceshields.

Lab tests also confirm the antifog’s high performance. In one test, a lens treated with Defog It was held over constant hot steam for 60 minutes without fog forming. Similar products failed in as little as 5 minutes. In another test, lenses coated with Clarity Defog It were moved between cold and hot environments 100 times without fog forming.

Defog It is available as a liquid or reusable cloths. More information, pricing and performance videos are available at defogitworks.com or by calling 1-888-ENDS-FOG.

[Nanofilm](#), founded in 1985, is the maker of Clarity Defog It and a global optical leader in lens care and coatings. Millions of people around the world use Nanofilm products, including Clarity Clean It™, Clarity Defog It™ and other lens care products, as well as nanotechnology-enabled coatings.
