DEFOG IT ANTIFOG TOWELETTES TESTED AT U.S. COAST GUARD TRAINING SITE; EARNS EFFECTIVENESS RATING OF 8.6 OUT OF 10

June 9, 2010 – Valley View, Ohio – In the heat and humidity of a south Florida Coast Guard training facility, trainers spend 2 days out of every five in teaching 100 tactical safety trainees wearing full-face protective gear how to handle tough situations. After rigorous real-world testing, [Defog It antifog](#) towelettes received a superior effectiveness rating of 8.6 on a scale of 10 from the users.

Defog It antifog has also recently been awarded the National Tactical Officers Association's Member Tested and Recommended Seal. Members of the NTOA who are active law enforcement officers field tested and reviewed the Defog It towelettes for use on eyeglasses, shooting glasses, faceshields and goggles, as well as for optics such as riflescopes and binoculars.

“For the military, fog-free vision is imperative for safety and effectiveness. Defog It antifog towelettes are a reliable solution for defogging faceshields, safety goggles and other eyewear,” said John Swett, Vice President of Sales and Marketing for Nanofilm, maker of Defog It liquid and towelettes.

In addition to Defog It's fog-fighting effectiveness, Coast Guard trainees like the ease of use, rating it 9.5 on a scale of 10 for ease of use. Said one trainee, “Being dry, it was easy to apply and left no extra mess to clean up.” Another noted that another benefit is that the towelettes are reusable and pocket size.

The Defog It antifog formula is used by the military worldwide. The antifog towelettes and antifog liquid provide safe, long-lasting fog prevention for all types of optics. In lab testing a lens treated with Clarity Defog It was held over constant hot steam for 60 minutes, and no fog ever forms. Other products failed in as little as 5 minutes. In another test, a treated lens was moved between a 30° freezer and a 72° room 100 times without fog ever forming.

Individuals and organizations can see demonstration videos, read research and case studies and purchase Defog It at www.defogitworks.com or at 1-888-ENDS-FOG.

Clarity Defog It™ is made by Nanofilm, a global optical leader in lens care and coatings. Millions of people around the world use Nanofilm lens care products, as well as nanotechnology-enabled coatings. More information is available at www.nanofilmproducts.com.
